Bierley

Maggie™

The Maggie is a sleek, credit card sized electronic magnifier. Depending on your wallet or purse, you can slot it in right near your credit cards or folded bills. How about slipping one in your pocket? There is no other electronic magnifier like this anywhere. With 3.5 hours of battery time, you could find yourself checking and reading things for days without needing a re-charge. When it is time to re-charge, use any wall socket or even a computer, notebook, netbook or anything else with a USB port. The included overnight charger, slowly and fully charges your battery for extended life or you can be on your way with a partial charge in just minutes.

If you are looking for the next generation of electronic magnifiers, look no further than the Maggie.
