Explora™

Pocket Electronic Magnifier

**Vivid, crisp,
full colour
image**

When out and about, or even at home, the Explora makes for quick and easy magnification. A single button turns the unit on, controls the LED lights and turns the unit off.

If you are looking for a portable, truly pocket size, electronic magnifier that is simple, affordable and has outstanding image quality, look no further than the Explora.

With its full colour image, the Explora is ideal for reading restaurant menus, checking bank card details or prices at the supermarket.

Measuring just over 3" high and 1" thick, the Explora is convenient to put in your pocket or purse, ready to use just when you need it.

- Non-slip rubber coating
- 3.5" non-glare, backlit, TFT screen
- Magnification approximately 4.5x
- Vivid, crisp, full colour image
